

Jazz Band Performances

This year we are having our jazz ensembles perform in pods. This is to ensure that there is always an audience for every band.

How does it work?

Both bands will warm up at their assigned time (if it says 1PM in the program, that is WARM UP TIME!)

One Band will warm up on stage and the other Band in the BC room.

(Clinics will be swapped except in the case of very large Jazz Bands).

For example, warm up on stage, your clinic will take place in the BC room.
(the BC room is last years clinic room)

Both bands should be warmed up and in the Jazz Performance venue. (Shumiatcher Hall) ready to perform at 20 minutes past the assigned time. (ie 1:20 PM)

Each band will perform for each other then move to their space for clinic.

As in past years, clinics are 1 hour. Entire rotation is 2 hours plus pictures.

Runners will be assigned to ensure everyone is where they need to be when they need to be there! Any questions, drop by the desk!!

Enjoy the experience!
